

Blue Glass Cleaner

Safety Data Sheet

Date revised: June 20, 2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product Identifier

Product Form: Liquid
Product Name: Blue Glass Cleaner
Product Code: STC0622

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the mixture: Glass Cleaner Concentrate

1.3 Details of the supplier of the safety data sheet

Apple Cleaning Supplies Ltd.
Unit 20, 333 - 28th Street NE
Calgary AB, T2A 7P4
780-569-6969

1.4 Emergency telephone number

CANUTEC (613) 996-6666

SECTION 2: Hazards identification

2.1 Classification of the substance of mixture

WHMIS 2015 - GHS Classification

Flammability	3
Skin irritation/corrosion	2
Eye irritation/corrosion	2A
Reproductive Toxicity	1B

2.2 Label elements

DANGER

Hazards:

H226	Flammable liquid and vapour.
H302	Harmful if swallowed.
H315	Causes skin irritation.
H319	Causes serious eye irritation.

- H412 Harmful to aquatic life with long lasting effects.
- H332 Harmful if inhaled.
- H360 May damage fertility or the unborn child.

- Precautions:**
- P103 Read label before use.
 - P210 Keep away from heat/sparks/open flames/hot surfaces. — No smoking.
 - P280 Use personal protective equipment as required.
 - P262 Do not get in eyes, on skin, or on clothing.
 - P273 Avoid release to the environment.

2.3 Other Hazards

SECTION 3: Composition/Information on ingredients

Component	CAS#	Concentration	LD ₅₀ (rat, oral)
Isopropanol	67-63-0	5 - 10 %	5045 mg/kg
Ethylene glycol monobutyl ether	111-76-2	10 - 20 %	700 mg/kg
Mixed C8 amphocarboxylates	68610-44-6	1 - 5 %	>5000 mg/kg

SECTION 4: First-aid measures

- Eye Contact:** In case of EYE CONTACT, rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Seek immediate medical attention/advice.
- Skin Contact:** In case of SKIN CONTACT, Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. If irritation persists, seek medical attention.
- Inhalation:** In case of INHALATION, move to fresh air. If person is not breathing, contact emergency medical services, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
- Ingestion:** In case of INGESTION, rinse mouth. Do not induce vomiting. If conscious, give 2 glasses of water. Get immediate medical attention.

SECTION 5: Fire fighting measures

- Extinguishing media:** Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
- Chemical hazards:** Closed unventilated containers risk rupture due to the increased pressure from decomposition. Use water spray to cool unopened containers.
- Protective equipment for fire fighters:** Positive pressure SCBA and standard firefighter bunker gear.

SECTION 6: Accidental release measures

In case of release avoid contact with skin, eyes and clothing. Wear respiratory protection. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas. Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations .

SECTION 7: Handling and storage

Precautions for handling:	Wear proper protective equipment when handling product. Avoid generating mists and vapours. Keep away from heat, open flames, and sparks.
Condition for safe storage:	Store in a cool, dry area away from incompatibles. Keep container closed and out of reach of children when not in use. Store away from sources of ignition.

SECTION 8: Exposure controls/personal protection

Control parameters:	Use in an area with good general ventilation. Avoid sources of ignition.
Appropriate engineering controls:	Good general ventilation (typically 10 air changes per hour) should be used.
Personal protective equipment:	If directly handling concentrate, wear chemical resistant gloves. Wear safety glasses with side shields. If handling large volumes of concentrate, wear fire resistant coveralls. Ensure access to eye wash station and emergency shower.

SECTION 9: Physical and chemical properties

Appearance:	Clear blue liquid
Odour:	Alcohol
Odour threshold:	n.av.
pH:	n.ap
Melting point:	n.av.
Initial boiling point and boiling range:	n.av.
Flash point	40 °C
Evaporation rate:	n.av.
Flammability:	Flammable
Upper/lower flammability limits:	n.av.
Vapour pressure:	n.av.
Vapour density:	n.av.
Relative density:	0.90 g/mL
Solubility:	Soluble in water
Partition coefficient: n-octanol/water:	n.av.
Auto-ignition temperature:	n.av.
Decomposition temperature:	n.av.
Viscosity:	n.av.

SECTION 10: Stability and reactivity

Reactivity:	Non-reactive.
Chemical stability:	Stable under normal conditions.

Hazardous reactions:	Data not available.
Conditions to avoid:	Avoid exposure to source of ignition.
Incompatible materials:	Acid chlorides, acid anhydrides, oxidizing agents, alkali metals, reducing agents, acids.
Hazardous decomposition products:	Can thermally decompose to product carbon dioxide and carbon monoxide.

SECTION 11: Toxicological information

Routes of exposure:	Ingestion, inhalation, skin and eye contact.
Symptoms of exposure:	Skin and eye contact may results in pain, redness, swelling and irritation. Inhalation may result in irritation of the upper respiratory tract. Ingestion may cause gastrointestinal distress.
Delayed and immediate effects:	Immediately irritating to skin and eyes. Prolonged exposure to vapours may cause respiratory irritation. May affect fertility or harm the unborn child.
Acute toxicity estimate:	15423 mg/kg rat (oral)

SECTION 12: Ecological information

Ecotoxicity:	Data not available
Persistence and degradability:	Expected to be readily biodegradable
Bioaccumulative potential:	Low potential for bioaccumulation
Mobility in soil:	Data not available
Other adverse effects:	Data not available

SECTION 13: Disposal considerations

Product should be disposed of in accordance to provincial or state and local government requirements prior to disposal. If the product was supplied in a single use container, care should be taken to dispose of the container in a responsible manner in accordance to local regulations.

SECTION 14: Transport information

Canadian TDG: Not regulated for transport

SECTION 15: Regulatory information

DSL: All components are listed on the Canadian DSL

SECTION 16: Other information

Prepared by: Apple Cleaning Supplies Ltd.

Apple Cleaning Supplies Ltd. believes that all statements, technical information and recommendations contained herein are based on available scientific tests or data which we believe to be reliable. The accuracy and completeness of such data are not warranted or guaranteed. We cannot anticipate all conditions under which this information and our products, or the products of other manufacturers in combination with our products, may be used. Apple Cleaning Supplies assumes no liability or responsibility for loss or damage resulting from the improper use or handling of our products, from incompatible product combinations, or from the failure to follow instructions, warnings, and advisories in the product's label and Safety Data Sheet.
