

KaiVac® 1700 Series

The KaiVac® 1700 series includes two No-Touch Cleaning® systems, the KaiVac® 1750 and the KaiVac® 1715. These innovative systems combine high capacity, compact size and a reduced price to deliver the highest value possible in this fast growing category.

Designed for total soil removal, No-Touch Cleaning combines an indoor pressure washer, chemical injection and wet vacuum technologies onto a single space-efficient platform. Workers simply spray cleaning solution on fixtures and floors, and then blast the soils to the floor with a high-pressure water spray. Finally, they vacuum the floor dry, completely removing soils and bacteria. The results are sparkling clean restrooms, kitchens, stairwells and more without ever touching a contaminated surface. No more soil, no more odor, no more complaints.

Multipurpose for Total Building Cleaning

Like all No-Touch Cleaning systems, the versatile 1700 series accommodates an array of add-on components that instantly transform them into true multipurpose machines.

Highlights:

- 150 or 500 psi pump
- HEPA filtration
- Small footprint and height for easy maneuvering and worker acceptance
- Removable "black box" engine compartment for rapid repair
- CRI Silver-Rated carpet extraction capability
- Perfect for climbing stairs and loading into vehicles
- Breaks apart for maximum portability
- Part of a complete system including a full line of cleaning chemicals
