

JS1600C

Commercial Power Steamer

The power of steam attacks grease, grime, hard water deposits and mold. It leaves surfaces clean and sanitized without the use of chemicals.

Operator safety is assured by the 12-volt steam controls, pressure switch, thermostat, high-limit thermal shutoff and pressure relief valve

The tank can be filled while unit is running, allowing for continuous use

Excellent on grouted floors, showers, kitchens and any area where detail cleaning is a challenge

Very effective in all food preparation and processing areas, including stainless steel range hoods in kitchens

Ideal for hotel rooms - spot draperies, bedspreads and carpets and even kill bed bugs and their eggs on mattresses

Clean floors with the optional "steam mop" and 33' hose

The continuous flow system provides the necessary steam to remove dirt and built-up soil while leaving your floors virtually dry

Reservoir Size	4 Quart
Boiler Size	1.25 Quart
Boiler construction	Stainless Steel
Heating Power	1500 Watts
Steam Temperature	329 Degrees F
Hose Length	10'

Power cord Length	8'
Steam Pressure	115 PSI
Voltage	120 V60 HZ
weight	12 LBS
Dimensions (LxWxH)	12"x20"x16"
