

The AutoVac™ is an automated floor cleaning machine that's three - four times faster than mopping with one major difference: it actually removes the soils completely from the floor surface instead of spreading them around. Even more impressive, it rivals the performance of an autoscrubber — at a fraction of the cost!

A really fast, simple approach to cleaner, safer floors, this system is perfect for high speed cleaning of hard surface areas, such as hallways, entranceways, cafeterias, lobbies, warehouses, fitness areas and more. It's as fast and effective as an auto scrubber without the added cost or complexity, making it perfect for building service contractors and facility managers alike.

PERFECT FOR:

Hallways
Lobbies
Cafeterias
Gymnasiums
Warehousing
Shop Floors
Healthcare
Education
Retail

Daily floor cleaning
Stripping floors
Finishing floors

HIGHLIGHTS

- In tests performed by a major university, both the AutoVac and an autoscrubber removed over 99% of targeted soil, while a new microfiber mop removed only 51%.
- Certified by the National Floor Safety Institute (NFSI) for providing high traction.
- Battery model cleans 20,000+ sq. ft. an hour. Corded version cleans 16,000+ sq. ft. an hour.
- Very simple to learn, use and maintain.
- Breaks down for light, easy transport.
- Includes all components necessary for a complete floor care system: cleaning, degreasing, stripping, waxing, and more.
- Easily expand capabilities by adding components and tools.
- Lifetime warranty on the vacuum motor with exclusive use of Kaivac cleaning chemicals.
- Universal Power Pack allows you to share batteries across all Kaivac battery-enabled systems.

Why is AutoVac™ Better?

Cleaning Effectiveness

In comparative tests performed by a major university, the AutoVac system removed up to 99.8% of targeted soil. This was slightly better than an autoscrubber, which removed up to 99.4%. A brand new microfiber mop only removed up to 50.9%. Ask your Kaivac representative for a full report.

High Performance

Independent performance tests show that users can clean more than 20,000 square feet per hour with the battery-powered AutoVac system. Plus, most users won't have to dust mop before cleaning or trail mop after cleaning.

Flexible Power Options

AutoVac is available in both corded and lithium-ion battery powered models for the ultimate in flexibility. The cordless capability offers maximum productivity and ease while the corded model offers extreme cost-effectiveness and robust reliability. The best part? You can quickly switch between modes for the best of both worlds.

Low Cost of Ownership

For most, the economics are the most compelling advantage. For starters, its initial purchase price is 10-25% of an equivalently sized autoscrubber. In many cases, it's less than the average annual maintenance costs of an autoscrubber. Plus, it's gentle on floors and finish, helping to prolong finish life and reduce refinishing operations.

Easy and Inexpensive to Maintain – No Technicians Required!

The AutoVac is inexpensive and easy to maintain. That's because, with so few moving parts, very little can go wrong. And if it does, it's so easy to troubleshoot and fix, unlike most cleaning equipment. Even better, the system doesn't require a technician to maintain or fix. And in most cases, an entire unit can be reconditioned in minutes for less than the cost of a single service call.

Multiple Modes of Operation

Spread-and-Vac

Simultaneously dispense and spread cleaning solution with instant vacuum extraction.

Spread Only

Extended dwell time for heavy soil, disinfection, etc.

Vac Only

Vacuum removal of liquids, cleaning solution, stripper.

AutoVac™ Includes:

AutoVac Add-on Kit

- Hitch Assembly for Trolley-Bucket
- 28 In. Drop Down Squeegee Head
- Drop Down Frame for Spreader Pad
- 5 Microfiber Pads

AutoVac Cordless Complete

- Trolley-Bucket
- Wet Vacuum with DC Motor
- AutoVac Add-on Kit
- Quick-change Power Pack and Charger

AutoVac Corded Complete

- Trolley-Bucket
- Wet Vacuum with AC Motor
- AutoVac Add-on Kit

Optional

- 100 Ft. Electrical Cord
- Quick-change Power Pack and Charger

Vacuum Specifications:

Tank	10 Gallons (37,85 l)
Tank Cleanout	100% via Dump/Drain Hose
CFM	90 cfm (2548 l/min) for AC motor
Motor Lift	92 inches (233,7 cm) for AC motor
